

Football Field Avalanche

Saddle Peak

Bridger Range

1/11/2021

Code

SS-R2-D2-O

Elevation

8600

Aspect

E

Latitude

45.79430

Longitude

-110.93600

Notes

Routine avalanche mitigation within the boundaries of Bridger Bowl sympathetically caused half of the Football Field on Saddle Peak to avalanche immediately south of the boundary. "Debris ran over the cliffs pulling out spindrift cones that were up to 5 ft deep."

*Note: Ski Patrols do not perform any avalanche mitigation outside ski area boundaries.

Number of slides

1

Number caught

0

Number buried

0

Avalanche Type

Soft slab avalanche

R size

2

D size

2

Bed Surface

O - Old snow

Problem Type

Persistent Weak Layer
