Natural wet loose slides near Cooke

Barronette Peak Cooke City 3/27/2022 Code WL-N-R1-D1.5-O Elevation 9000 Aspect E Aspect Range E-SE Latitude 44.97520 Longitude -110.08700 Notes

We observed widespread natural wet loose activity on 3/27/22 on the way into Cooke City. Slides were 8-12" deep and happened yesterday and today. While pulled over to photograph a crown we heard avalanches running on slopes nearby.
