Wind Slab Avalanches near Zimmer Creek

Zimmer Creek Cooke City 2/9/2025 Code SS-R1-D1 Latitude 45.09990 Longitude

-109.88400 Notes

Went skiing north of Cooke City today near Zimmer Creek. I saw a few wind slabs. Some appeared to be skier triggered, some were natural. No other avalanches seen. Moderate to strong wind from the west all day. I saw shooting cracks in obviously windloaded areas.
